# McMinnville Business Spotlight 2008

*This month's featured Chamber of Commerce member:*

**NORTHWEST  
GARAGE PROS**  
**503.472.7572**

*Parker Smith speaks to McMinnville Area Chamber of Commerce event guests while showing off a floor coating done by Northwest Garage Pros and explaining the state-of-the-art process.*

Whether the floor coating application is for a garage floor, food service, medical care, commercial or industrial the Northwest Garage Pros Floor Coating system offers many advantages with the added benefit of faster "return to service" than either epoxy or urethane systems.

This coating is a complete floor system for demanding situations. Look to Northwest Garage Pros for a floor coating that has a high abrasion resistance, stain resistance, chemical resistance and long term durability.

**Just look at the following advantages:**

- Non staining
- Fast cure—return to service in hours not days
- Higher abrasion & impact resistance than epoxy or urethane

- UV light stable, "water clear" finishes
- No humidity restrictions
- Withstands 350°F

It sounds like a dream come true: Turn out perfect floors you walk on one hour after the final sealer coat - or drive on the next day. With Northwest Garage Pros coatings this feat is easily doable and it looks spectacular. If you've ever dreamed of a beautifully organized garage with a great looking, durable floor, call Northwest Garage Pros to get a free estimate. This coating is perfect for both indoor and outdoor projects.
